

SRI MUTHUKUMARAN MEDICAL COLLEGE HOSPITAL & RI

Chikkarayapuram, Near Mangadu, Chennai - 600069

Graduate Attributes:

The National Medical Commission (NMC) of India had set standards and guidelines for medical education and practice in the country. Among its many responsibilities, it has defined the attributes expected of medical graduates to ensure they are competent and capable of serving the healthcare needs of the population.

The students of Sri Muthukumar medical college hospital & research institute (SMMCHRI) are ensured to acquire knowledge, skills, attitudes, values and responsiveness throughout the medical education by appropriately trained professional teachers and graduate with the following key attributes.

1. **Clinical Competence:** Medical graduates of SMMCHRI possess the necessary clinical skills and knowledge to diagnose, treat, and manage various health conditions. This includes proficiency in conducting physical examinations, interpreting diagnostic tests, and formulating appropriate treatment plans.
2. **Ethical Practice:** Integrity, honesty, and ethical behaviour are of paramount importance for medical graduates of SMMCHRI. The graduates adhere to professional codes of conduct, maintain patient confidentiality, and prioritize the well-being of their patients above all else.
3. **Communication Skills:** Effective communication is essential for building trust with patients, collaborating with colleagues, and conveying medical information accurately. The graduates of SMMCHRI are able to communicate clearly and empathetically with patients from diverse backgrounds and effectively discuss complex medical concepts with their peers.
4. **Professionalism:** Medical graduates of SMMCHRI demonstrate professionalism in all aspects of their practice, including punctuality, respect for colleagues and patients, and accountability for their actions. They also exhibit a commitment to lifelong learning and continuous professional development.
