REMEDIAL MEASURES FOR SLOW LEARNERS

1. Term Internal assessment examinations - are done at the end of every term before university examination. The pattern of this examination is same as that of university examination which act as a mock test for students.
2. Mock Tests: The more students are exposed to exams, the easier it becomes for them to perform well in them. Repeated exposures to such mock tests have proven to be quite helpful for students to get a grip of concepts.
3. Remedial classes - Remedial classes are given to students who are lagging behind after working hours between 4:30 to 5:30 pm to improve their performance
4. Make-Up Assignments - Before the internal assessment, make-up assignments are given to the slow learners on topics in assessment which is time bound. This is not publicized and the information is personally communicated to the students.
5. Revision Classes - Revision classes are being regularly conducted by all the departments prior to the examinations, after the completion of syllabus, with the purpose of reinforcement of concepts and with the intention of providing a supporting hand to the slow learners.
6. Case Presentations in Clinical Postings -Periodic case presentations are carried out to provide opportunity for direct feedback and improvement.
7. Seminar Presentations: We encourage all students to present topics for their better understanding which only adds to the longevity of their memory and also helps slow learners to overcome their shortcomings.
8. Counselling: We have always directed our teachers and mentors to keep on pushing forward and encouraging students to do better in their academics. This has proven to be the pivot around which all the other remedies have evolved.
9. Meditation and Yoga: This has helped the students to have a peace of mind and improve concentration.

SPECIAL PROGRAMMES FOR ADVANCED LEARNERS

1. Quiz: We conduct regular quiz activities which has proven to be beneficial for the students to level up their skills in the light of competitive exams. Many of our students have been able to shine in State and National level quiz competitions.
2. Paper & Poster Presentation: A thorough pre-exposure to paper and poster presentation has helped our students even in their post-graduation courses. This has also proven to be helpful in average students to eliminate anxiety and build up their confidence.
3. Debate: This initiative has helped in boosting up their morale but also in making great orators out of them.
